CEA have intimated that the scheme would be accorded clearance subject to fulfillment of certain conditions such as clearnce from environment and forest angle, civil aviation department, arrangement for construction of Mulki Dam, finalisation of logistics for transortation of coal from Talchar to Project site, compliance to section 29 (2) of the Electricity Supply Act 1948, etc.

The above clearances are being pursued with the various departments of the state and central Governments. The various sources of funding to this project such as investment from Non-resident Indians (NPIS), participation by any foreign agency either in part for supply of equipment and capital loan or taking up the project on turn key basis etc. are being explored. However, this project has not been included under 7th Plan and the question of inordinate delay in setting up this project does not arise.

SRI M. BIASIUS D'SOUZA.—Mr, Speaker. I would like to know from the Hon'ble Minister when will this plant come into existence and when the Government is going to take steps to acquire the land at the same time I have got a request to make that in proper compensation should be paid for land acquired for this project ?

SRI P. G. R. SINDHIA.—The question of setting up of this project does not arise because this has not been included in the 7th plan. It will be included in the 8th plan. As far as acquisition of land and compensation are concerned, once the project is cleared then all these things will be examined and due compensation will be paid as per rules.
